Education

Master of Computer Application
Amity University
January 2024-present

Full-Stack Web Development
Masai School
July 2022 - December 2023

Bachelor of Arts
St. John's College
May 2019 - August 2021

Technical Skills

Node.js Git RESTful APIs

MongoDB JavaScript

Express.js

Responsive Web Design

React

Soft Skills

Problem Solving Teamwork

Effective Communication

Attention to Detail

Adaptability

Time Management

Achievements

Mandalay Kabaddi Player
Barj Public Inter College

Himanshu Jain
Node JS Developer

Professional Summary

Professional Summary: Dynamic Node.js developer with expertise in JavaScript, MongoDB, and RESTful APIs. Excels in collaborating with cross-functional teams and optimizing backend systems for performance and security. Adept at utilizing Generative AI and rapidly learning new technologies to enhance software solutions.

Experience

Wunderman Thompson Studio | Email Developer | January 2024 – July 2024

- Specialized in creating responsive HTML email templates with clean, table-based, and inline CSS, ensuring compatibility across various clients.
- Managed over 1000 projects annually, from research and conceptual design through testing and implementation phases.
- Proficient in email development and skilled in working with ESPs like Salesforce Marketing Cloud and Marketo.
- Ensured quality assurance using best practices and tools like Litmus and Email on Acid.

Projects

Smart Buy   Live Demo Link   Github Repo Link

JavaScript Git Node.js Express.js

MongoDB RESTful APIs

Responsive Web Design HTML5 CSS3

- Developed RESTful APIs to handle user authentication, product management, and payment integrations using Node.js and Express.js.
- Implemented secure OTP verification for user sign-ups and logins to enhance security.
- Optimized MongoDB queries to improve the performance and scalability of the application.
- Collaborated in a team to ensure smooth deployment and continuous integration.
